

From the President

Hello again to all club members. Thankfully the worst part of the lockdown is finally over, and we can get back to work, and also some dog training. So, if you are wanting to train at the club, please get in touch with whomever you have trained with, so they can let you know what they have planned for the future weeks.

A very important part of being a club member is the annual subs. These are now way overdue. A hiccup on my part, I guess, as I forgot to put it in the April newsletter. And, with COVID, no one was really thinking of anything else but the virus.

If you wish to keep on training and also competing, can you please get onto this straight away. Thank you.

We are able to have our August Jumpers and Obedience show. We will be wanting as many entries as we can get, so membership is important for this as well. I am so looking forward to competing again, it has been a long break from it.

During the enforced break, many of the club members got into the tricks training and gained a few new titles for their dogs—congratulations all.

Anyone who has new titles, please let Natalie know and send the info and a photo, for next month’s newsletter.

Paddy

SAFETY MESSAGE

For the safety of all dogs, handlers and members of the public, the SDTC Committee operates a no tie up policy **at all club training and events.**

Unless you are working your dog, they must be on a lead held by a capable adult or shut securely in a vehicle or crate so that the dog cannot get its head out. Remember, there are kennels available for use at the back of the hall.

News and Notices

No news received—not a lot going on - so instead here's another poem for you.

This time submitted by Jake Andor Petal CDX FD (SPCA Mongrel)

Why It Is Important to Choose a Dog With NZKC Papers.

PETAL: [speaking]
I always wanted to be a Labrador.
Retrieving, retrieving, retrieving.
Ducks, Mallards, Geese, Pigeons, Quail, Rabbits, Tennis Balls, Basket Balls, Toys, Dumbbells, Dropped Keys, Anything, Everything, All Things.

PETAL:[singing]
I'm a Labrador, and my name's Jake.
I sleep all night and I eat all day.

CHORUS:
He's a Labrador, and his name's Jake.
He sleeps all night and he eats all day.

PETAL:
I fetch all things. I like to jump
And land upon the fence.
On Wednesdays I go training.
To learn Obedience.

CHORUS:
Retrieves all things. He likes to jump
And land upon the fence.
On Wednesdays he goes training
To learn Obedience.
He's a Labrador, and his name's Jake.
He sleeps all night and he eats all day.

PETAL:
I fetch all things. I leap and twist.
I like to lick my paws.
I clean myself for hours
And sharpen up my claws.

CHORUS:
Retrieves all things. He leaps and twists.
He likes to lick his paws.
He cleans himself for hours
And sharpens up his claws?
He's a Labrador, and his name's Jake.
He sleeps all night and he eats all day.

PETAL:
I fetch all things. I lap up milk,
I've never chased a car.
I wish I'd been a feline,
Just like my dear Papa.

CHORUS:
Retrieves all things. He laps up milk?
He's never chased a car?
[talking] What? Wants to be a pussy?
A member of the Southland Dog Training and Gun Dog Clubs.
Oh, Dear!
[singing] He's a Labrador, and his name's Jake.
He sleeps all night and he eats all day.

Laser Therapy

A powerful medical tool

A researched and tested science, **Laser Therapy** provides non-invasive, drug-free treatment, without side effects. It helps heal injured tissue, reduces inflammation and gives long lasting pain relief.

When correctly used **Laser Therapy** cannot cause damage to living tissue. It is an effective treatment for muscles, tendon and ligament problems, fractures, wounds, inflammation, arthritis, scar tissue, neck, elbow and knee pain, and post-operative healing.

Laser Therapy can speed the healing process to half the time.

Archie's Obedience Blog

After missing a month I bet you are all wondering what I have been up to during the Humans lockdown period.

Well Mum just kept working as normal however on top of the COVID-19 thing, her work computer system was hacked which meant that Mum was home early for a few days and boy did we have some fun. Lots of ball throwing, fun training and cuddles on the sofa. The best times for me and I guess that Rosie and Oscar.

I've got to walk to the shop to get her treats for the week. She said I am the only one to be trusted tied up outside the shop. Don't know why she was concerned because no matter how cute I tried to look, none of the other humans would come near me and appeared to be avoiding me like I had rolled in something delicious.

The hardest thing for me and my brother and sister was not being able to leave the property for five whole long weeks – but Mum said it was for the best and we had to obey the rules set by the Government who look after us.

Helping Mum repot or un-pot.... Not sure why she was unhappy with me – I did such a good job with the yummy compost

Rosie on what is going to be part of the dog fun wall in our new dog garden Mum is building.

I really didn't want this picture taken. I thought Mum would get the message when I ran away to the bedroom.... She followed me and here I am with my RallyO RAE Certificate.

Rosie practicing her pole moves during the break.

WOOF WOOF

Archie
